Dear 4Life Research:

AMC Cancer Research Center would like to express how pleased we are to partner with you in promoting optimal health to the world. We believe our partnership will serve to provide wellness products and research that have never been available to anyone before.

AMC Cancer Research Center has spent many years researching and studying D-glucarate and has great confidence in its ability to provide optimum detoxification protection. We know that as people use D-glucarate, they will obtain vital protection against the many toxins and carcinogens that threaten their daily health.

We are enthusiastic at the possibilities D-glucarate offers in combination with 4Life Transfer Factor™. There is no doubt that the synergy of these two great products will offer unprecedented cellular protection that will make an enormous impact on human wellness.

We are confident that as your customers take D-glucarate with Transfer Factor™ every day, they will realize greater wellness and enjoyment of life.

Sincerely,

A handwritten signature in black ink, reading 'Thomas J. Slaga'.
